Mentoring

The mentoring wing of the college was initiated in the academic year 2016-2017 to provide students with a supportive environment to foster their growth and help them achieve their goals. The mentor identifies each student's strengths and weaknesses, guiding them to overcome challenges and further enhance their positive attributes, thereby grooming them into well-rounded individuals for future endeavours. A mentoring wing has been established in the college to ensure the successful implementation of this system. At the beginning of each academic year, a mentor/mentee list is prepared and submitted to the principal's office for review and reference. Each mentor maintains a mentoring register for around 15 students to track their academic and personal progress. Details of interactions with mentees are also recorded. This system operates parallel to the tutorial system, in which one teacher is assigned to a batch of students. Objectivity and detachment are the two principles strictly adhered to in this practice. If mentors feel the need to discuss any matters concerning their mentees with the parents, it is done with the knowledge of the concerned Head of the Department. Although priority is given to resolving academic issues, personal problems, family matters, and social issues related to learning disabilities are also addressed to the extent possible. In such cases, the mentor consults the Head of the Department and the Principal, depending on the severity of the issue. If necessary, clinical, or psychological counselling is provided for the students.

Mentors guide slow learners to remedial coaching, the Scholar Support Programme (SSP), and advanced learners to Walk with a Scholar (WWS) and the Additional Skill Acquisition Programme (ASAP). Continuous evaluation is conducted by the class teacher for all students. Based on their talents and interests, mentors encourage students to participate in various clubs, cells, and forums. Group mentoring sessions are also held at least once every semester to resolve student's issues and analyze their progress and improvement in academic and other areas. Online platforms are also utilized to make mentor-mentee interactions more effective. Additionally, mentors act as guides to students throughout their learning process. Workshops and seminars are conducted by the mentoring wing every year to enhance the effectiveness of mentoring.

Mentoring Wing Report (2018-2019)

The mentoring wing of the college was initiated in the academic year 2016-17 to give its students the most congenial environment to enhance their growth and help to achieve their goals. Following two years of successful implementation, the program was continued in the academic year 2018-19. During this period, mentoring was provided to undergraduate and postgraduate students of the 2016, 2017, and 2018 batches. Each teacher was tasked with mentoring around 20 students. The program was successful in achieving its goals.

MENTORING WING

Report (2019-2020)

During mentoring sessions at the college, mentors effectively communicate with their mentees, enabling them to identify the student's strengths and weaknesses. This allows mentors to guide the students in overcoming their weaknesses and preparing for future endeavours.

Dr. Sandhya C. continued as the coordinator of the mentoring cell, with Ms. Midhila Baby, Dr. Ranjini Radhakrishnan, and Ms. Deepthi S. Nair as the other faculty members in charge. Periodic meetings were held to discuss any necessary modifications to the existing mentoring format for the smooth functioning of the cell. In the academic year 2019-20, the first meeting of the mentoring cell took place on July 15, 2019. As in previous years, newly admitted undergraduate and postgraduate students were assigned mentors, with each mentor responsible for a batch of 20 mentees. The members suggested organizing a session to discuss the technical details of mentoring with all mentors. In the next meeting on August 8, 2019, the existing mentoring register was modified and prepared for final printing.

To enhance the effectiveness of the mentoring program, a workshop titled "Skills for Successful Mentoring: Competencies of Outstanding Mentors and Mentees" was held on October 17, 2019, organized by the mentoring wing in association with the college's IQAC. Prof. Mathew Kanamala, HOD of the Department of Social Work at St. Thomas College, Moolamattom, served as the resource person. His inspiring session helped mentors develop innovative mentoring tools to promote mentee learning and emphasized the importance of core mentoring skills for the mentee's development and the mentor's effectiveness.

An evaluative meeting was held at the end of the academic year via an online platform. It was concluded that the mentoring cell successfully achieved its goals, and the direct communication between teachers and students significantly improved the teacher-student relationship.

MENTORING WING

Report (2020-2021)

Mentoring helps to build a positive and concrete change in individuals and to boost the transfer of knowledge from the mentor to the individual. It also provides professional socialization and personal support to facilitate success in various aspects of life. The mentoring wing of the college was initiated in the academic year 2016-17 to give its students the most congenial environment to enhance their growth and help achieve their goals. The student's strengths and weaknesses are identified by the mentor and trained in the right direction to overcome weaknesses and further strengthen the positive attributes to groom her /him into a complete individual for future endeavors.

The activities of the mentoring wing for the academic year were coordinated by Ms. Midhila Baby, Dr. Ranjini Radhakrishnan, and Ms. Deepthi S. Periodic meetings were conducted to discuss any modifications required in the existing mentoring format and to plan the activities for the smooth functioning of the cell. The first meeting of the mentoring cell was held on July 22nd, 2020. As in the earlier years, the newly admitted undergraduate and postgraduate students were assigned to mentors in a way that each mentor was allotted a batch of 20 mentees. At the beginning of the academic session, teachers are given a list of student names to be mentored. Mentors contact the students they've been allocated during their free time or whenever it's convenient for them. Mentoring is provided in the areas of personal growth, academic progress, and career choice. Mentor sheets are used to gather pertinent information about students and to plan future meetings.

In the next meeting held on August 18th, 2020, it was decided to aptly observe National Mentoring Day by organizing an orientation talk for the mentors of the college on the topic: "The Power of Mentoring". The day was observed on 27th October 2020 by the Mentoring Wing of the College, in association with Social Entrepreneurship, Swachta and Rural Engagement cell, Unnat Bharath Abhayan, IQAC, and KEDAS. Rev. Dr. Johnson Palackapallil (Principal, Sacred Heart College, Thevara) was the resource person. He stressed the fact that the mentor-mentee relationship must be a secure area for both the mentee and the mentor to express their concerns without fear of being criticized. Another important aspect of a healthy partnership is trust. 85 mentors participated in the programme.

MENTORING WING

Report (2021-2022)

The mentoring wing of the institution was established in the academic year 2016-17 to provide its students with the most nurturing environment to foster their development and aid in accomplishing their objectives. The mentor evaluates the student's strengths and flaws and guides them in the appropriate route for overcoming weaknesses and enhancing favorable traits to shape them into a 'complete individual' for future endeavors. It helps the student to make wise selections at every turn in their academic and professional journey. When people are uncertain about their job paths or require support at a critical juncture in their lives, mentors are the lights that can illuminate the way forward. Most students have trouble balancing their academic, professional, social, and personal obligations while in college. These are all equally crucial for the development of a well-rounded personality. A mentor offers support and motivation in addition to imparting important life lessons. A mentor's primary responsibility is to offer their student objective ideas and guidance while maintaining the integrity of the truth and the facts. The activities of the mentoring wing for the academic year were coordinated by Ms. Midhila Baby, Dr. Ranjini Radhakrishnan, Ms. Deepthi.S, Ms. Lekshmi T.S, Ms. Ann Maria Johns and Ms Nimmy Johns.

The first meeting of the mentoring cell was held on July 19th, 2021 to discuss any modifications required in the existing mentoring format and to plan the activities for the smooth functioning of the cell. In the next meeting held on August 12th, 2021, it was decided to assign the newly admitted first-year graduate and post-graduate students to mentors in the same manner as in previous years, with each mentor receiving a group of 15 mentees. A list of students to be mentored was given to teachers at the start of the academic year. Mentors get in touch with the students they've been assigned to whenever it's convenient for them or during their free time. Also, if the mentee requires assistance, they can freely approach the mentor.

In the meeting held on 5th October 2021, the members of the mentoring cell were sensitized to the need of constant motivation and encouragement to make the students more focused. The members emphasized on the need of professional level assistance for the students to increase employability in different fields.

Mentoring is offered in the areas of professional development, academic advancement, and personal growth. Each mentor is also provided with a mentoring register to compile essential data on pupils and schedule upcoming meetings. A meeting was conducted on 4th January 2022, for discussing the programs to be conducted for observation of International Mentoring Day. It was decided to conduct a reflection competition on 17/01/2022 for the students on the topic 'Teacher candle of inspiration'. An evaluative meeting was held at the end of the academic year on 3rd March 2022. Feedbacks were collected from the mentors and asked for suggestions for the improvement. From next academic year onwards, it was decided to collect an annual report from each mentor including relevant points about mentees personal growth. The meeting concluded with the note that mentors can serve as positive role models, demonstrating professional behavior, work ethics and integrity.

Mentoring Wing

Report (2022-2023)

Mentoring fosters positive and tangible change in individuals while facilitating the transfer of knowledge from mentor to mentee. It also provides professional socialization and personal support, aiding success in various aspects of life. The college's mentoring wing, established in the academic year 2016-2017, aims to create a nurturing environment for students to enhance their growth and achieve their goals. Mentors identify student's strengths and weaknesses, guiding them to overcome challenges and further develop their positive attributes, shaping them into well-rounded individuals for future endeavors. Dr. Ranjini Radhakrishnan, Ms. Deepa Mary Joseph and Ms. Deepthi S.Nair coordinated the mentoring wing's activities for the academic year. Periodic meetings were held to discuss necessary modifications to the existing mentoring format and to plan activities for the cell's smooth operation.

The first meeting of the mentoring cell took place on July 15, 2022. Each department was given the freedom to prepare their own lists of mentors and mentees. These lists were then submitted in a shared Google Doc, allowing the coordinators to make any necessary adjustments. This process ensured that each department could tailor the mentoring relationships to best meet the needs of their students.

The next meeting was held on August 29, 2022, where the primary agenda was to discuss and clarify the mentor-mentee lists submitted by each department. During this meeting, issues related to the lists were sorted out, and a decision was made regarding whether mentoring sessions should occur during free periods or at fixed times. Additionally, Heads of Departments were tasked with ensuring the proper functioning of the mentoring system within their respective departments. Additionally, the coordinators ensured the proper functioning of the mentoring system and provided assistance regarding the reported issues.

The next meeting took place on October 13, 2022. By this time, the mentor-mentee lists were completed, and various activities were planned to support the mentoring process. The coordinators ensured the proper functioning of the mentoring system and reviewed the planned activities to facilitate smooth operations and effective mentoring relationships.

The subsequent meeting was held on February 10, 2023. During this meeting, it was decided that a mental wellness program needed to be conducted. The coordinators emphasized the

importance of supporting student's mental health and planned the necessary steps to implement this program effectively. On 17th February 2023, the Mentoring Cell and Counseling Cell of K.E. College jointly organized a program on Mental Wellness: Issues and Challenges in Late Adolescence for the first year students. The resource person for the program was Dr. Angel Thomas, a renowned clinical psychologist with expertise in adolescent mental health. The program was aimed at providing students with an insight into the mental health challenges faced by late adolescents and equipping them with the tools to address them.

The program was held in the college Fabian hall and was presided by Dr. Ison V. Vanchipurackal, Principal of the college. Fr. Johnson Joseph, Dr. Ranjini Radhakrishnan and Ms. Deepthi S. Nair, the coordinators of the mentoring cell and counseling cell respectively, along with several first year students. The program commenced with the welcome address by Dr. Ranjini Radhakrishnan, who introduced the resource person and highlighted the importance of mental wellness in the current times.

Dr. Angel Thomas took over the session and gave a comprehensive presentation on the mental health issues faced by late adolescents, such as anxiety, depression, substance abuse, eating disorders, and self-harm. She also highlighted the factors that contribute to these issues, such as social media, peer pressure, academic stress, and family problems. The resource person emphasized the need for students to identify the warning signs of mental health issues and seek professional help. She also spoke about the stigma surrounding mental health and how it can be overcome by creating a supportive and inclusive environment. The session concluded with a Q&A segment where the students had an opportunity to ask questions and clarify their doubts.

The program was well received by the students and faculty, who appreciated the valuable insights provided by Dr. Angel Thomas. The program successfully achieved its objective of creating awareness about mental health and equipping students with the necessary tools to address mental health challenges. The Mentoring Cell and Counselling Cell of K.E. College deserve appreciation for organizing such an informative and engaging program on mental wellness. At the end of the academic year, an evaluative meeting was held on March 20, 2023. Suggestions for improvement for the upcoming academic year were discussed.
