4.2.3.

Stock and Purchase

4.2. LIBRARY AS A LEARNING RESOURCE

4.2.3. STOCK AND PURCHASE

The College has a Library Committee responsible for the careful planning, organization, and monitoring of stock and purchases. This ensures that the collection meets the needs of its users. By combining effective stock management practices with a strategic approach to purchasing, Kuriakose Elias College Library builds and maintains a dynamic collection that adapts to the evolving needs of its users.

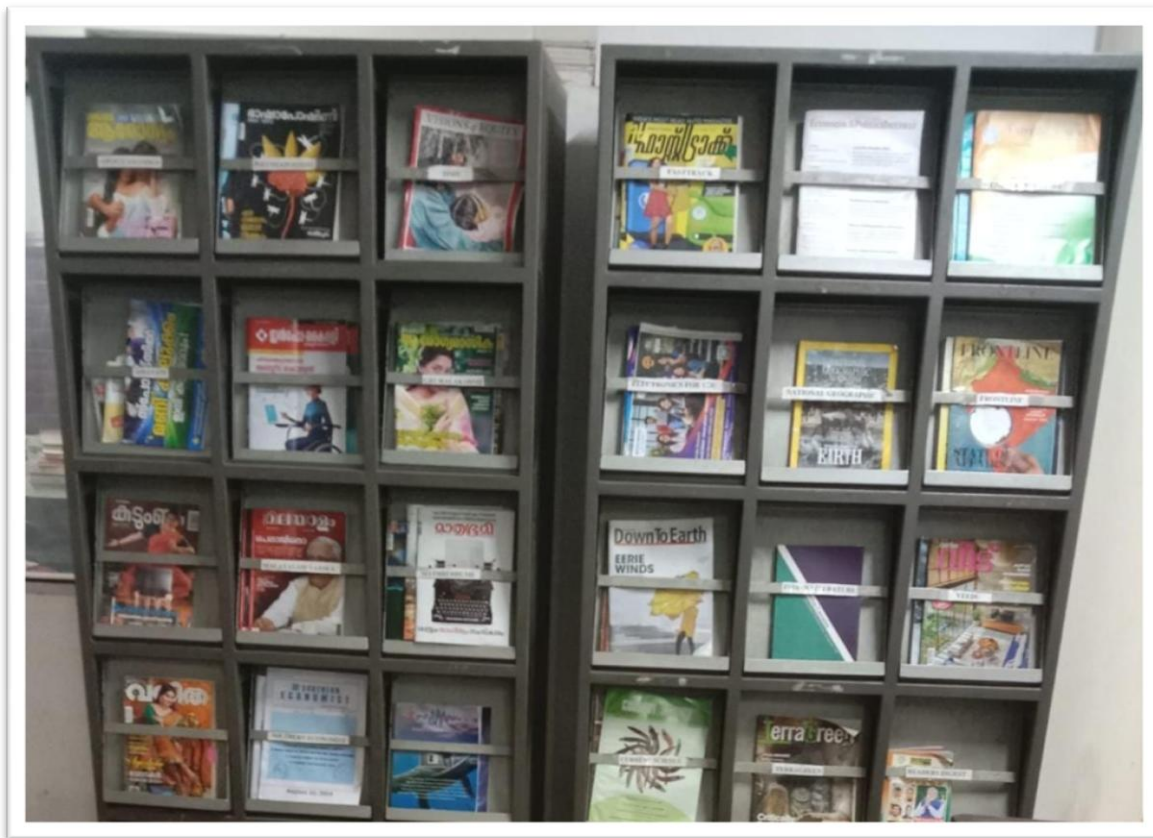

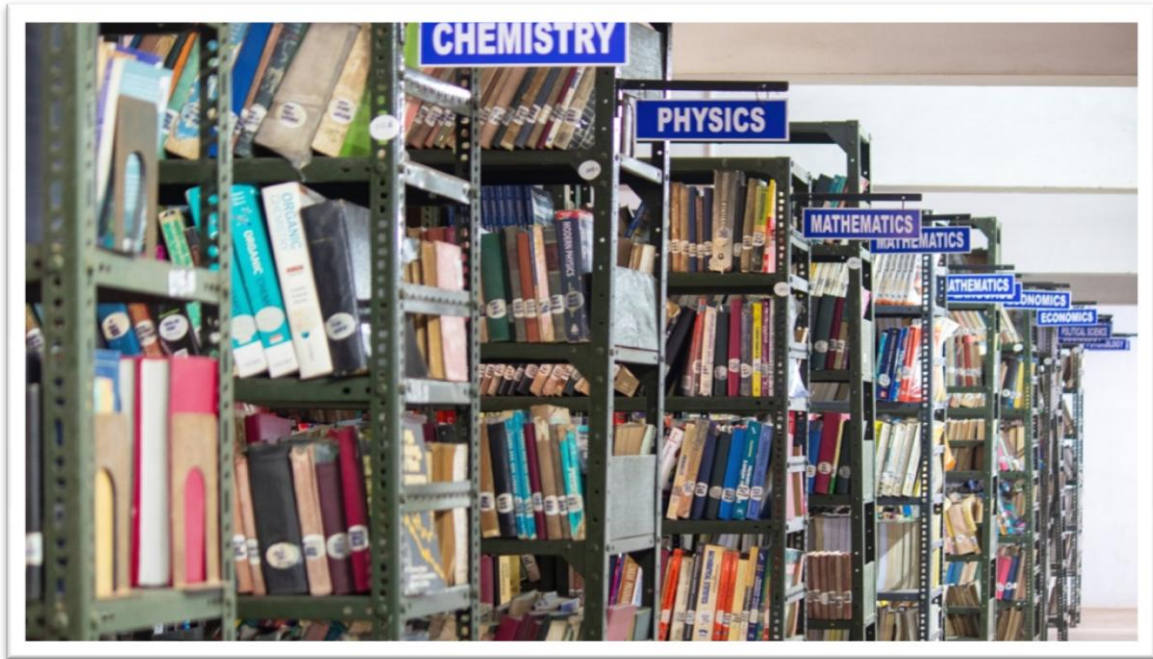

STOCK

Library features a vast collection of books spanning a wide range of academic disciplines. Special sections of books are earmarked for WWS, SSP, NET coaching, remedial studies, Civil services/competitive examinations, FIST and career guidance. The main library's extension includes an archival section, where rare manuscripts, rare books etc are kept for reference. However, all these valuable possessions are never transferred to the main library to prevent future contingencies like theft, misplacement etc. The extension (in the monastery) was also meant to be accessible to the public.

The following table provides a comprehensive overview of the library's automation, resources covering the period from 2018 to 2023.
