#### Notice

05/06/2022

**Subject:** Adoption of the 5Rs Principle for Campus Sustainability

In alignment with our commitment to sustainability, we are promoting the adoption of the 'Respect, Rethink, Reduce, Reuse, and Recycle' (5Rs) principle across our campus. This initiative is crucial in cultivating a culture of environmental responsibility and resource conservation.

#### Key Actions:

1. Respect the environment by minimizing waste.
2. Rethink and reassess consumption habits.
3. Reduce the use of single-use plastics and unnecessary resources.
4. Reuse materials whenever possible.
5. Recycle waste properly by sorting it into designated bins.

All heads of the departments are instructed to inform the staff and students to effectively adapt and move toward to implement the green protocol of the college.

### Notice

07/06/2022

**Subject:** Encouragement of Energy-Conserving Transportation Methods

In our ongoing effort to promote sustainability, we encourage everyone to reduce the use of automobiles and adopt energy-conserving modes of transport. Options include:

1. **Cycling or Walking:** For short distances, choose these eco-friendly methods.
2. **Car Pooling:** Share rides to minimize the number of vehicles on the road.
3. **Public Transport:** Use public transport systems where possible.

These practices will contribute to reducing our carbon footprint and conserving energy.

Thank you for your support.

### Notice

12/07/2022

**Subject:** Effective Waste Management and Disposal Practices

To enhance our waste management practices, we are implementing new procedures for waste separation and disposal on campus. Effective immediately, all waste must be sorted into the following categories: biodegradable, non-biodegradable, and hazardous materials.

#### Instructions:

1. **Biodegradable Waste:** Include food scraps, paper towels, and garden waste. Use compost bins.
2. **Non-Biodegradable Waste:** Includes plastics and metals. Use recycling bins marked for non-degradable materials.
3. **Hazardous Waste:** Includes batteries, electronics, and chemical substances. Dispose of these at designated e-waste collection points.

Proper waste management is essential for maintaining a clean and sustainable environment. Your cooperation is highly appreciated.

### Notice

25/09/2022

**Subject:** Adoption of Eco-Friendly Practices for Campus Events

As part of our green initiatives, all campus events must adhere to environmentally friendly practices.

Please ensure the following guidelines are followed:

1. Use reusable utensils for dining and beverages.
2. Avoid non-degradable decoration items such as plastic bouquets and flex banners.
3. Choose alternatives like cloth banners, metal boards, and electronic displays instead of plastic banners.

These measures are crucial for reducing our environmental footprint and fostering a culture of sustainability.

Thank you for your attention to these guidelines.

#### Notice

10/10/2022

**Subject:** Upcoming Training Programs on Eco-Friendly Skills

We are pleased to announce new training programs designed to enhance your skills in eco-friendly practices. These programs include:

1. **LED Bulb Making:** Learn how to create energy-efficient lighting solutions.
2. **Crafts and other products from Waste:** Develop skills to produce reusable and recycled goods from discarded things.

These sessions are part of our commitment to fostering an eco-friendly lifestyle and making you more self-reliant.

All heads of the departments are instructed to inform the staff and students.
