

K.E. BLOOD DONORS' CLUB

Every year, millions of lives are saved through blood transfusions made possible by voluntary donors across the world. Blood donation and blood donation camps are vital to healthcare systems. They save lives, improve the health of communities and ensure that blood is always available for those who need it. The K.E. College Blood Donors' Club was founded with the primary goal of providing blood for transfusions to patients in urgent need. Our college's strategic location near the Medical College Hospital in Kottayam District, as well as several esteemed specialty and super-specialty hospitals, positions our Blood Donors Club as a crucial resource in emergencies.

Our implementation strategy involves acting as an intermediary between donors and patients. Hospitals or other parties in need officially contact the college office and we then mobilize appropriate donors to provide the necessary blood. The Blood Donors Club operates efficiently through its well-functioning web page created in college website, which also adds vibrancy to the club's activities. In addition, the club regularly observes Blood Donor Day to raise awareness about the critical need for safe blood and blood products.

To maintain the authenticity of its activities, the office bearers diligently document daily blood donation certificates issued by the Department of Transfusion Medicine at Government Medical College, Kottayam. They also maintain the club's blood donor register and certificates issued during various blood donation camps organized by the Higher Education Institution (HEI). Attached are the certificates and documents related to blood donors.
